Title of Study:

Context-Aware AI-Assisted Personal Reflection

Version Number and Date:

V1, 2026-06-09

Researcher(s) of the Study:

Brennan Jones (Assistant Professor), Jiahao Jiang (Undergraduate Student), Cherie Toh (Undergraduate Student), Bowen Ding (Undergraduate Student), Sofiia Mamonova (Undergraduate Student), Dongkai Ning (Undergraduate Student)

Purpose of the Study:

The purpose of this research is to design and evaluate AI-powered systems that help people reflect on their daily experiences, activities, digital behaviour, habits, goals, media consumption, or other non-clinical aspects of everyday life.

Many people use diaries, journals, note-taking tools, media histories, self-tracking tools, and AI chatbots to support reflection. However, these tools often require users to manually remember, describe, and interpret their experiences. This can be difficult, time-consuming, or incomplete. Context-aware AI systems may help by using user-approved personal context data, such as high-level location categories, time of day, activity patterns, media consumption history, photos, notes, or other information provided by the user, to generate reflective summaries, journal entries, visual artefacts, or guided reflection prompts.

This project combines and extends previous work on AI-assisted journaling and AI-assisted reflection on personal media consumption. For example, one type of system may help users write reflective journal entries based on high-level descriptions of places they visited during the day. Another type of system may help users reflect on patterns in their YouTube viewing history through AI-generated summaries, images, and guided reflection. The broader project may also include other related AI-powered systems for personal reflection.

Our goals are to understand how people use context-aware AI systems for personal reflection, how they interpret and revise AI-generated reflective outputs, what privacy and agency concerns they have, and how future systems can be designed to support meaningful, user-controlled, and privacy-conscious reflection.

This study is not intended to provide medical, psychological, therapeutic, legal, financial, or other professional advice.

The Contact Details of Lead Researcher (Principal Investigator):

Prof. Brennan Jones, Assistant Professor
Department of Computing, School of Advanced Technology
Xi'an Jiaotong-Liverpool University
Office: SIP Campus, Science Building C, Room SC564D
Email: brennan.jones@xjtlu.edu.cn
Phone: +86 (512) 8916 5997

Participant Information Sheet:

Before deciding whether to participate in this research project, you should read the participant information sheet carefully. Please click this [link](#) to access it. If you have any questions, please do not hesitate to contact the principal investigator before agreeing to participate.

Research Ethics Approval:

This research project has received approval from the University Research Ethics Review Panel at XJTLU. Please click this [link](#) to view the research ethics approval letter.

Informed Consent Statements:

1. I confirm that I have read and have understood the information sheet dated [V1, 2026-06-09] for the above study. I have had the opportunity to consider the information, ask questions and have had these answered satisfactorily.

本人确认已阅读【V1, 2026-06-09】版本的研究信息单并了解了该项目相关研究信息并已从项目负责人处得到考虑、提问的机会，且得到满意答复。

2. I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason, without my rights being affected.

本人知晓对该项目的参与为自愿，且可以随时退出，无需任何理由，同时权利不会受任何影响。

3. I understand that I can, at any time before my study data are anonymised, ask for access to the information I provide, and I can also request the destruction of that information if I wish.

我明白，在我的研究数据被匿名化之前的任何时候，我都可以要求获取我所提供的信息，并且如果我愿意，我也可以要求销毁该信息。

4. I understand that the video and audio of this study session are being recorded, and I consent to the recording being used for research purposes.

我理解此次研究会话的视频（仅屏幕共享）和音频正在被录制，并同意这些录制内容将用于研究目的。

5. I may optionally consent to the audio recording of my spoken responses being automatically transcribed using Tencent Meeting's third-party cloud-based AI transcription service.

我可以选择同意使用腾讯会议的第三方云端 AI 转录服务，对我的口头回答录音进行自动转录。

1. By selecting “Agree”, I hereby agree to take part in this study. [单选题] *

☐ Agree 同意并继续

☐ Disagree 不同意

2. By selecting “Agree”, I hereby consent to the audio recording of my spoken responses being automatically transcribed using Tencent Meeting’s third-party cloud-based AI transcription service. [Optional] [单选题] *

- ☐ Agree 同意并继续
- ☐ Disagree 不同意

3. Participant Name [Optional]: [填空题]

4. Email [Optional]: [填空题]

5. Please sign here [Optional]: [上传文件题]

6. Date [Optional]: [填空题]
